MC Cable Cutter

Patent-Pending Cam-Action

Cuts Metal-Clad Cables up to 1"

Greenlee is proud to introduce our **NEW** 0952-01 MC Cable Cutter. This innovative product allows professional electricians to cut metal-clad cable up to one inch in diameter. The patent-pending cam-action of the cutting blade is designed for shallow cuts to greatly minimize the chance of nicking wires.

Traditional rotary cutters cannot accommodate metal-clad cables larger than 3/4" diameter and hacksaws

are unreliable; often nicking wires causing rework, call-backs or safety hazards. Greenlee's **NEW** MC Cable Cutter can handle metal-clad cable diameters up to 1", making it one of the larger capacity cutters on the market. Additionally, at less than 12 oz, it's also the lightest. That means electrical professionals can handle a greater variety of cable sizes without being burdened with a heavy tool bag.

Features

- Use With AC and MC Cable up to 1".
- Adjustable up to 1" outside diameter.
- Cuts in seconds with a few quick turns of the crank and an easy twist of the armor.
- Convenient under-handle blade storage holds spare blades.
- Quick load clamp system makes repeat cuts fast and easy.
- Use with replacement blades Greenlee Cat #1941-1 or #1941-5.

Specifications

Dimensions	10.63" x 6.13" x 2.5" (270x156x64mm)
Weight	0.72 lbs (0.33kg)
