

K-SERIES MECHANICAL CRIMP TOOL 8 - 1/0 AWG

K-Series Mechanical Crimper 8 - 1/0 AWG

Cat No: K05-SYNCRO

UPC No: 783310064404

Description

- **SYNCRO die design** - the new synchronized die design (SYNCRO) eliminates crimping errors from mismatched dies
- **Laser-cut dies** - More dimensionally accurate than stamped dies
- **Patented gear** - Minimizes potential for tooth breakage, improving tool durability
- **Modified handle design** - new slip guards for easy handling and control
- **Simple design** - Fewer screws improves reliability
- **Faster**
 - 50% reduced set up time when changing dies
 - Rotate dies using one hand
- **Safer**
 - Color-coded, laser-cut, hexagonal rotating dies that prevent inaccurate crimps
- **Easier**
 - Small, light weight, easy to handle
 - Synchronized die rotation for effortless die changing
 - Easy to get into tight locations

Specifications

- Application : For Smaller Copper Connectors
- Crimping Capacity : 8 AWG - 1/0 AWG Copper
- Overall Length : 15-3/4" (400.05mm)
- Standard :
 - C/US UL Listed
 - UL and cUL classified with Anderson, Blackburn, Burndy, ILSCO, Panduit, Thomas & Betts and Penn-Union copper connectors.
 - The products listed above are registered trademarks of Anderson, Blackburn, FCI Burndy, ILSCO, Panduit, Penn-Union and Thomas & Betts.
- Type : K Series
- Weight : 2.750 LB (1.247 KG)
- Width : Crimp Head : 3-1/8" (79.375mm)
- Width Head Open : Crimp Head : 3-5/8" (92.075MM)
