

## Choose Genuine Ty-Rap® High-Performance Cable Ties for Quality, Performance and Innovation.

### Oval, Low-Profile Head

gives a professional, quality look to wire bundling projects. The classic-shaped head is designed to prevent snags on uneven surfaces and is easier to pull through bulkheads. There are no sharp edges, so these ties are also easier on the installer's hands.

The **Turned-up Tail** makes the tie easier to pick up off a flat surface and provides the ability to orient the cable tie for easy assembly without looking down — perfect for blind or repetitive applications.

**No-Slip Tail** provides extra grip during tensioning.

For a whole bundle of reasons, trust only Genuine **Ty-Rap® High-Performance Cable Ties** by Thomas & Betts in your next wiring installation.

**The Original Cable Tie®**  
Invented in 1958

**“The Grip of Steel®” Non-Hydroscopic Stainless Steel Locking Device** ensures maximum performance, strength and life.

**Versatile Nylon 6.6 Material** provides high strength and a wide temperature range. Ty-Rap® High-Performance Cable Ties are also available in a wide range of other materials for a variety of extreme environments.

**Smooth, Notchless Body** reduces stress concentration points under tension, making the tie stronger and increasing life expectancy, especially in changing environments.

**Ribbed and Stippled Body** grips the bundle and prevents slippage.
